POLISH WEATHER FORECASTS,
REPORTED FROM KRAKOW,
1 AUGUST - 7 OCTOBER 1951

These forecasts were compiled by the Polish State Hydrological
 and Meteorological Institute, Krakow. They give details of weather
 conditions in the mountains which do not appear in the forecasts
 for nearly the same period published in the Warsaw paper Trybuna
Ludu. All temperatures are given in centigrade.

STAT

1 August

Fair with some cloudiness and possible light rain in the western areas.
 Highest temperature in the uplands during the day will reach 28 degrees with
 7 to 15 degrees in the mountains. Calm or light variable winds.

2 August

Generally fair with probable thunderstorms during the afternoon. Highest
 temperature during the day will reach 28; during the night, about 15 degrees.
 Light southerly winds.

3 August

Quite fair with occasional increasing cloudiness and probable thunder-
 storms. The temperature during the day will reach 30 degrees and during the
 night, about 15 degrees; temperature high in the mountains, from 8 to 18
 degrees. Light southerly winds changing to westerly winds.
